

City of Seattle Preliminary Assessment Report

December 11, 2009

This report represents a preliminary determination of project requirements based on your PASV. The PASV Field Assessment and Report is completed by DPD site inspectors and is compiled from initial project information submitted by the applicant. Therefore, the report requirements may be subject to additions, changes, or modifications by the department. The purpose of the report is to assist applicants through the intake phase of their project by clarifying requirements on a project specific basis. The applicant is responsible for providing all required documents at the intake appointment. If you have questions about fulfilling these requirements or the next step in applying for a permit, please call the ASC.

Project Summary

AP/Project No.	6234682	Ground Disturbance	Y
Application Template	BLDG	PASV Required This Permit	Y
Application Type	DEMOLITION	Date PASV Completed	12/10/09
Category	COMMERCIAL	PASV Done Under	
DPD Review Type	FIELD	Permit Remarks	
Address	305 Harrison St		
Location			
Zoning	URBNV	Applicant	JEREMY KNAPMAN 35131 SE CENTER ST SNOQUALMIE WA 98065 (206) 856-0857
King County APN	1985200003		
Permit Status	Initial Information Collected		
Description of Work	Demolish existing building (Fun Forest Amsmnt "C" - Seattle Center) per site plan, subject to field inspection (STFI).	Applicant Email	jeremyk@nuprecon.com
		Linked AP/Project Nos.	6234688

Contact: Ede M Courtenay, (206) 733-9679, Ede.Courtenay@seattle.gov

The site plan did not include the following existing or proposed elements:

The site inspector has contacted the applicant and requested additional info needed to complete the plan. left a message on Dec 9, 09.

ECA Mapping Unit and Type

Non-ECA

Construction Erosion Control

All projects with earth disturbance, regardless of size, require temporary and permanent stormwater control in accordance with the Construction Stormwater Control Technical Requirements Manual (DR 16-2009, Volume 2). The Stormwater Control Best Management Practices (BMPs) noted below can be found on the Construction Stormwater Control (CSC)/Post Construction Soil Amendment Plan or in the Construction Stormwater Control Technical Requirements Manual. Both are available online and from DPD's Public Resource Center.

Show the following on the CSC/Post Construction Soil Amendment Plan:

Place compost socks, compost berms, filter fabric fencing, straw bales, straw wattles, or other approved perimeter control BMPs to eliminate construction stormwater runoff.

Show the location of a stabilized construction access to the site; show methods to eliminate uncontrolled conveyance of mud and dirt into the right of way (ROW).

Cover bare soil with compost blankets, straw, mulch, matting, or other approved equal to control construction stormwater runoff.

Cover stockpiles and bare slopes with tarps, matting compost blankets or other approved equal to control construction stormwater runoff.

A temporary erosion and sedimentation control (TESC) First Ground Disturbance inspection is required before any ground disturbance related to this permit, including demolition, tree cutting, clearing, grubbing, and grading. After your permit is issued, schedule an inspection by calling (206) 684-8900 or online at: <http://web1.seattle.gov/DPD/InspectionRequest>

Inspectors Notes

Demo permit only. The two structures to be removed do not have basements. The basement status of the adjacent building (The Center House) is unknown in this area. No unusual conditions observed.

Applicant Next Steps

For questions on permit application process, please contact the Applicant Services Center (ASC) at 206-684-8850.

1. Please review the requirements set forth in this report.
2. Use Client Assistance Memos (CAMs), checklists and standards, and 5 Steps for a Successful DPD Application Submittal (available on the DPD website) for additional information.
3. When all issues have been addressed, you may schedule an intake appointment with DPD. Please bring a copy of this report.
